

# Loomis International Ltd

'forming relationships since 1979'

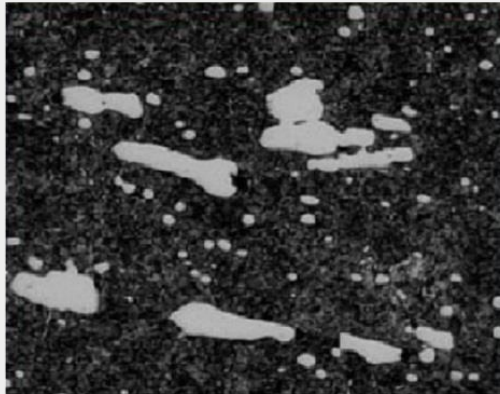

## Loomis Torx<sup>®</sup> / Torx Plus<sup>®</sup> Pin Advantages

- Materials: M2, M42, M42+ & PM64 (next thing to carbide)
- 4 micron finish on 'PVD' coated pins (no extra charge)
- In-house 'PVD' coatings (TiN, TiCN, TiALN, CrN & ZrN) providing the capability of a quick turnaround.
- Quality audited by Acument's test laboratory
- Tight penetration tolerances
- Vacuum heat treated
- Large inventory of finished pins and blanks
- Finished and blank inserts in-stock
- Specials with short lead times (in-house tool company)
- Loomis presses all their own pins! (not just a grind shop)
- Domestic supplier & centrally located
